  $CTRON_EXEC/ciarload/

- Download the file from Gdrvie link

  https://drive.google.com/open?id=1EoakdAb7r3YgZBdMkfE7mYKJs9iOzbAm

- Unzip the file

- Copy the file "SBKOCHL" to below path:

  $CTRON_EXEC/ciarload/

Impacted Areas

Jira ID	Impacted Areas
APS-6565	No other impacted areas.

QA Notes:

Before Fix: On the AR custom program/screen user has the option to enter the cash deposits for multiple bank Id's/currencies.

Due to this when the user is processing a payment the screen allows them to change the bank ID and if they do this at a certain stage of processing, if a user verifies on batch inquiry, bank ID becomes out of sync with the payment bank ID.

After Fix: User is not allowed to change the Bank Id.
